July 2011

## The Institute of Scrap Recycling Industries, Inc. (ISRI)

ISRI reports that Kentucky has over 2,440 operation jobs in 2011 in the scrap industry with an additional 3,700 jobs in supporting roles as suppliers (everything from agriculture to transportation to government). A total of \$289.2 million is earned by the 6,140 employees.

Would you like to know how many scrap and scrap related jobs are in a specific congressional or senatorial district? Just click on <http://resource-recycling.com/node/1950> to learn more.

## Kentucky Public Procurement Association (KPPA)

Membership is open to "any public official representing federal, state, county, or city governments, colleges and universities, school systems and political subdivisions, or other public entities who are full-time employees having purchasing, contracting or materials management responsibilities".

Contact [Stacy.Phillips@ky.gov](mailto:Stacy.Phillips@ky.gov) or click on <https://www.kppanigp.org/> to learn more about the membership benefits.

## Waste Tire Trust Fund Amnesty Program

Bob and Lori Fore, recent transplants from New Mexico told Ricky Solomon (Supervisor) and Shannon Powers of the Recycling Assistance Section that the foliage and then the snow covered the more than 2,000 tires they inherited when they bought their land in Bath County. It wasn't until spring that they realized they had a problem.

Lori's investigative skills came in handy when she discovered the Division of Waste Management's web-site that contained information about the Waste Tire Amnesty Program. The nearby Waste Tire Amnesty event allowed representatives from Mac's Tire Recycling (MTR), the state's contractor, to remove the 2,000 waste tires. The program has removed over 17 million tires in its 11-year history. The Waste Tire Amnesty Program's schedule is changing from a four year turnaround to a three year turnaround – each county will now have an amnesty every three years –

another example of program improvement for the state.

*Thank you, Shannon Powers - Recycling Assistance Section - for your article about the Bath County cleanup.*

## Creative Recycling Systems

The Finance and Administration Cabinet has awarded a contract to [Creative Recycling Solutions](#) that will result in environmentally sound recycling and data security for the more than 5 million pounds of electronic scrap generated by government agencies and educational institutions in Kentucky each year. The e-Scrap contract period for January 2009 through June 2011 brought the total pounds collected to 7,622,320 lbs. or 3,881 net tons. Reimbursements climbed to \$232,226.70, with charges of \$78,769.61. The net revenue to generators for the period was \$153,457.09.
